Abstract

The innovative power of young people is indispensable in driving world growth. To transform your ideas into valuable economic assets and add value to your creations, you must learn to protect, manage, exploit and commercialise your intellectual property as an intangible asset. You are cordially invited to join the below training course organised by the Intellectual Property Department for free. Participants will receive a certificate upon completion of the respective training course.

Intellectual Property Department: IP Training Programme “IP105 Patent Basics”

This course aims at enabling participants to grasp the basic concepts of patents, including the patent protection system, the method and process of patent registration and the application of patent information in research and business. The medium of instruction will be Cantonese.
