Hong Kong Baptist College was founded by the Baptist Convention of Hong Kong in 1956 as a post-secondary college committed to the provision of a whole person education. In 1983, it became a fully-funded public tertiary institution, and the College gained university status just over a decade later. It was renamed Hong Kong Baptist University (HKBU) in 1994.

Over the years, HKBU has remained committed to the pursuit of excellence in education, research and service to the community. As one of Asia's finest institutions of higher learning, HKBU is dedicated to nurturing future generations of civically engaged community members, and it provides them with a broad-based, transdisciplinary and creative education.

Its seven faculties/schools offer a wide array of programmes across a diverse range of disciplines, from the arts, business, communication, and social sciences to science and technology, Chinese medicine and sport.

With its fundamental strengths in the arts and humanities, HKBU offers an education and research environment that fosters technological progress with a focus on the human dimensions. At the same time, the University is using technology to push the envelope of human imagination in the arts and cultural sphere. Coupled with our unceasing efforts to achieve breakthroughs in science and Chinese medicine, HKBU strives to contribute to the building of a better world and a more compassionate society.

香港浸會學院是由香港浸信會聯會於1956年創辦的私立高等學府，致力提供全人教育。1983年，當時的香港浸會學院獲政府全面資助，成為公立專上學府，至1994年獲得正名，成為香港浸會大學（浸大）。多年來，浸大一直在教育、研究及社會服務上追求卓越。作為亞洲最優秀的高等教育學府之一，浸大致力培育未來世代成為貢獻社會的英才，為他們提供廣泛多元、跨學科及具創意的教育。浸大設有七個學院，為學生提供多樣化的學科選擇，由藝術、工商管理、傳理、社會科學以至科技、中醫及體育等等。

浸大在藝術及人文領域堅實的基礎上，提供適切的教學及研究環境，推動以人為本的科技發展，同時利用科技不斷開拓人類在藝術和文化的想像空間，並在科學及中醫領域上不斷帶來突破，銳意建立一個更美好的世界及仁愛的社會。

 COLLEGE OF 國際學院
INTERNATIONAL EDUCATION

Established in 2000, the College of International Education (CIE) is a self-funded unit of HKBU, offering full-time Associate Degree (AD), Higher Diploma (HD), and Undergraduate (UG) Programmes. The CIE, managed by the School of Continuing Education (SCE), currently enrolls around 3,600 students and is committed to the University's mission of providing quality whole person higher education with a Christian heritage. Students can enjoy the quality campus facilities and amenities in the Shek Mun (Shatin) campus, along with the additional resources available at the HKBU Kowloon Tong and Kai Tak campuses.

國際學院是浸大於2000年成立的自資學院，開辦全日制副學士、高級文憑及學士學位課程。國際學院由持續教育學院管理，目前有3,600名全日制學生就讀，學院秉承基督教教育傳統，致力發展全人教育。同學可以享用位於石門（沙田）校園的優質設施，同時使用浸大九龍塘和啟德校園的學習資源。

ASSOCIATE OF SCIENCE HEALTH SCIENCES

理學副學士 健康科學

Programme Features 課程特色

There has been an increasing demand for health professionals in Hong Kong in connection with the ageing population. A professionally trained workforce is important to sustain the development of homecare and community health services in meeting the needs of the elderly. This area of Concentration Studies aims to equip students with a broad spectrum of health sciences knowledge in relation to public health, health education, health psychology, diseases prevention and nutrition knowledge.

Distinctive features include:

- Examining the relationship among food safety, environmental health, toxicology and human health;
- Acquiring the basic skills in handling nutraceuticals, pills, supplements and health systems for prevention and treatment of diseases;
- Equipping students with the nutrition knowledge used in health-related industry;
- Gaining the essential skills and practical exposure through internships in community NGOs and hospitals.

The programme provides students with essential knowledge of health sciences in relation to public health, diseases prevention and nutrition. As there will be a huge demand for health professionals in Hong Kong in connection with an ageing population, graduates can work in both private and public healthcare settings.

ASSOCIATE OF SCIENCE LIFE SCIENCE

理學副學士 生命科學

Programme Features 課程特色

Life science uses scientific knowledge to study organisms, including animals, molecules and microorganisms, to explore the composition, structure, function and relationships of life. This area of Concentration Studies aims to provide students with a common and broad-based foundation in modern biological science disciplines such as human physiology, biochemistry, cell biology and genetics, and training in fundamental laboratory techniques.

Distinctive features include:

- Concepts related to biological sciences, health and diseases;
- Topics related to the impact of modern biotechnology in daily life and society;
- Industrial exposure from field visits, study tours, and summer internship programmes.

This programme aims to provide students with the up-to-date biotechnology theories and applications. Through a combination of classroom lecturing and experiential learning involving laboratory practicals, workshops and seminars, students will have the opportunity to develop their careers in biotechnology and pharmaceutical research and development. Graduates will be ready to work in various areas such as government sectors, pharmaceutical or cosmetic research institutes, accredited testing and medical laboratories, biotech enterprises and science education in schools. Additionally, graduates may choose to further their studies at local government-funded university undergraduate programmes related to biological science, biotechnology, or biomedical science.

Dr. Leo F.W. Lee

ASSOCIATE OF SCIENCE NUTRITION AND FOOD MANAGEMENT

理學副學士 營養與食物管理

Programme Features 課程特色

This area of Concentration Studies aims to provide students with knowledge of nutrition in relation to energy balance and healthy diet, nutrition applications in the human life cycle and disease prevention. Students will be introduced to marketing strategies in health food management. Students will also be equipped with techniques in operating and quality assurance in food service and health food sectors.

Distinctive features include:

- Nutrition theories and concepts in food service and health food sectors;
- Principles in organising promotions and initiatives regarding food and nutrition services;
- Unique exposure to real-life professional work environments through internship programmes; close partnership and networking with food companies and NGOs.

A comprehensive understanding of nutritional science enables students to develop diets that support disease prevention. This programme also emphasises the significance of quality management within the food service industry, equipping graduates for further education and career opportunities in nutrition and food management. Graduates may pursue Bachelor's Degree Programmes in fields such as food and nutrition, food safety and testing, health science, or applied science.

人文及語言學部

- AD Chinese for Professional Purposes 專業中文
- AD Cultural Studies 文化研究
- AD Music Studies 音樂學
- AD Professional Communication and English Studies 專業傳意及英語研究
- AD Visual Arts 視覺藝術

The Division of Arts and Languages offers diverse curricula in the field of language, language arts, music, art, and the humanities. Our colleagues are highly qualified lecturers, a few of whom are also published writers.

Students' bilingual and critical thinking skills are sharpened through studying both Chinese and English masterpieces. The Division also offers students a solid introduction to theories in various disciplines. Students have many opportunities to showcase their work and talent in print publications, the performing arts, and visual arts.

CIE has close collaborations with the HKBU Academy of Music and the HKBU Academy of Visual Arts, offering students opportunities to be mentored by Faculty professors. Overseas study tours and experiential learning activities are also regularly offered.

人文及語言學部提供多元的課程選擇，包括語言文學、文化研究、音樂及藝術。我們的教學團隊由資深講師組成，除教學外，部分講師也具有寫作出版及報章專欄撰稿等經驗。

學部致力提升同學的雙語語言能力，同學透過欣賞東西方大師作品，加強分析與批判能力。學部注重傳授基本理論，讓同學理解學術的不同範疇及學術文化的進程。此外，更會給予機會讓同學展示他們的出版成果、音樂表演及藝術創作等。本學部與浸大音樂學院、視覺藝術院合辦副學士課程，由浸大的教授悉心指導同學學習。課堂以外，同學也有機會參與海外學術交流及體驗學習等活動。

ASSOCIATE OF ARTS CULTURAL STUDIES

文學副學士 文化研究

Programme Features 課程特色

This area of Concentration Studies trains and equips students to approach and synthesise knowledge from multiple perspectives informed by various disciplines, so that they will have the intellectual acumen and skills required for a range of academic fields. Students can apply a variety of methodologies in approaching and critically analysing cultural processes and issues in local and global contexts.

Distinctive features include:

- Multi-disciplinary perspectives from theory and literature to art, media and popular culture;
- Identifying and analysing the human, artistic and social values of diverse cultural practices, particularly in relation to challenges and conflicts in contemporary issues or debates.

We trace the history of thinking to tease out how 'culture' is manufactured and consumed by analysing creative works, such as film, literature, and popular arts. We historicise by connecting theory with experience.

ASSOCIATE OF COMMUNICATION CREATIVE DIGITAL MEDIA DESIGN

傳理學副學士 創意數碼媒體設計

Programme Features 課程特色

This area of Concentration Studies aims to train students to acquire broad-based knowledge in digital media design from planning, creative development and production to management. The programme will provide students with the opportunities for the innovative use of digital and media-related technologies in design and media industries.

Distinctive features include:

- A comprehensive and integrative approach to learning which helps students study the principles and concepts of communication and multimedia design;
- Preparing students for professional practices in a wide range of design disciplines, for example, communication design, branding and design management, imaging & publishing, animation and digital narrative production.

Students are encouraged to explore the possibilities in creative arts, design and culture, multimedia, and visual communication in this programme. Their aesthetics are developed with the knowledge gained from research skills, concept development to practical visual production. Articulation pathways cover different aspects of creative industries and communication design in local and overseas universities.

ASSOCIATE OF SOCIAL SCIENCES PRACTICAL PHILOSOPHY

社會科學副學士 實踐哲學

Programme Features 課程特色

This area of Concentration Studies aims to train students to acquire analytical and critical thinking abilities in various philosophical, political, social and ethical issues. Students are equipped with both interdisciplinary knowledge and problem-solving skills; students are capable of analysing information related to the complex and controversial issues in those areas.

Distinctive features include:

- Investigating into a diversity of philosophical issues from an interdisciplinary perspective;
- Analysing and solving complex problems using an evidence-based, objective and critical approach;
- Applying philosophical knowledge and utilising analytical skills in philosophical, religious, social, political and cultural issues as well as problems encountered in daily life.

Practical Philosophy equips students with philosophical thinking skills and interdisciplinary knowledge of practical utility that help them deal with various ethical, political, social and technological challenges in the contemporary world. The training helps students flourish at work and in life. As for our 2023 graduates, the total articulation rate is 83% (66% UGC-funded degree programmes; 17% Self-funded degree programmes).

ASSOCIATE OF SOCIAL SCIENCES PSYCHOLOGY

社會科學副學士 心理學

Programme Features 課程特色

This area of Concentration Studies offers training in understanding human behaviour and mental processes using scientific methods. It provides students with basic theoretical and practical training to pursue study in professional psychology.

Distinctive features include:

- Internship opportunities for students to gain first-hand experience in a variety of related settings, including social welfare organisation, children with special education needs and research;
- Acquiring and applying research knowledge in different projects, from setting up research questions to data collection and statistical analyses. Students will also strengthen their critical thinking through critiquing academic journal papers.

Psychology, with its emphasis on scientific methods, enables students to understand and explain human behaviour and mental processes from diverse perspectives. This field significantly contributes to enhancing the quality of human life. By applying psychological knowledge in their daily lives, students can better navigate personal and professional relationships, equipping themselves for future career development and success.

Dr. Ice S.Y. Tsui
Academic Co-ordinator

本專修旨在介紹專業心理學的基本學術概念及技巧，訓練同學以科學方法瞭解人類思想及行為。

課程特色包括：

- 通過參加相關機構的實習計劃，同學可運用課堂知識以及進一步瞭解業界的運作。實習包括協助社福機構、特殊學習需要兒童及學術研究等；
- 課程強調心理學研究方法，同學可從發掘研究題目、數據收集及統計分析中實踐所學知識，亦會透過評鑑學術文章，提高同學的批判思維能力。

Special Facilities 特別設備

The Psychology Laboratory (心理學實驗室) and Child Assessment Centre (兒童評估中心) at Shek Mun Campus provide facilities for students to carry out laboratory observations, assessments and experiments.

ASSOCIATE OF SOCIAL SCIENCES SOCIOLOGY AND DIGITAL SOCIETY

社會科學副學士 社會學與數碼社會

Programme Features 課程特色

Digital technologies impact our society, culture and the self. They shape all aspects of our everyday lives and become interconnected with social relations, labour markets, education, health, security, recreation and other areas of the social world. We have seen changes in the way public services, consumption, and transportation delivered through digital mechanisms such as apps and digital platforms. This brings positives but many challenges remain such as the rise of fake news, cybercrime, misinformation and inequalities generated by digital technologies. This area of Concentration Studies aims to introduce students to a variety of topics informed by sociological theory and methodology and help them to make sense of the digital society to make a better future.

Distinctive features include:

- Equipping students with broad-based training in sociology;
- Providing students with theoretical training and the essential skills in social research, to critically understand and analyse the digital society.

Students who can apply sociology to explain human behaviour in the digital society have diverse career prospects. They can find opportunities in the government, social media management, digital marketing, journalism, social research, and education. Their ability to critically analyse the social implications of digital platforms on social structures, and cultural practices allows them to address the complex challenges that arise in the digital era.

Dr. Lucy Kong
Academic Co-ordinator

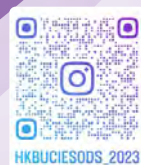

數碼科技發展一日千里，為社會、文化及個人帶來巨大的影響。數碼科技除了影響日常生活外，更與勞動市場、教育、健康護理、保安及娛樂等社會事務息息相關。目前應用程式及電子平台被廣泛應用於公共服務、娛樂消費及交通工具上，有利也有弊，像是假新聞、網絡罪行、失實資訊及不公平的事情等也因數碼科技而不斷衍生。有見及此，這門專修課程旨在透過社會學理論和研究方法引領同學洞悉數碼社會現象及探索未來發展。

課程特色包括：

- 透過全方位培訓，鞏固社會學的知識基礎；
- 提供專業理論與社會研究訓練，以批判思維去理解、分析及洞悉數碼社會現象。

ASSOCIATE OF SOCIAL SCIENCES SPORT AND RECREATION STUDIES

社會科學副學士 運動及康樂學

Programme Features 課程特色

This area of Concentration Studies is designed for students who intend to study or work in the field of sport and recreation. It offers courses especially designed to equip students with knowledge and practical skills for delivering sport and recreation programmes to the community.

Distinctive features include:

- An extensive range of sport skills supported by the athletic facilities at Shek Mun campus, including gymnasiums, an indoor heated swimming pool and a fitness room;
- Volunteer opportunities at major local sport and recreation events to gain hands-on experience in running different sport activities and to apply theory and knowledge in practical contexts.

Our programme equips students with both theoretical knowledge and hands-on practical skills essential for realising their aspirations — pursue further studies and develop a career in the field of sport and recreation. The overwhelming majority of graduates from this Concentration Studies successfully obtained senior places in a variety of UGC-funded and self-funded sports-related undergraduate programmes offered by local universities, with an impressive articulation rate of approximately 90%.

INTERNATIONAL EXPERIENCE GLOBAL PERSPECTIVES

國際體驗 環球視野

CIE believes that students need to embrace diversity of cultures and practices, knowledge and skills to meet the changing needs of the world. In order to foster an appreciation and understanding of cultural diversity, the College provides a range of cultural exchange and overseas experiential learning activities to students. In past years, CIE students participated in different exchange programmes, including HKBU University Exchange Tours, Global Attachment Opportunities, Metropolitan Attachment Programmes, as well as various overseas study tours organised by CIE.

Although COVID-19 made international travel difficult, CIE has turned this challenge into an opportunity. Appreciation and respect for other cultures are fostered through classroom learning, extra-curricular activities and experiential learning activities. Students from international partner universities, scholars, writers, business leaders and industry experts from abroad are invited to give talks and seminars online to cultivate multicultural sensitivity and competence, as well as to improve our students' knowledge of global affairs.

The "Virtual Exchange Centre" has been dedicated to strengthening connections with overseas educational institutions since its establishment, with an aim to enhance intercultural exchanges and to support the development of cross-cultural communication. Over the past two years, we have provided diversified virtual exchange opportunities for local and international students through a variety of course-embedded extra-curricular activities, including hosting Hong Kong's first International Academic Virtual Exchange Conference, "Global Virtual Exchange Summit 2024". The Summit attracted 83 speakers from 25 countries and 682 participants from 48 countries.

現今社會發展瞬息萬變，學院深信同學必須具備相應的知識和技巧，擁抱多元文化。為鼓勵同學學會探索世界和包容不同文化，學院致力籌辦各種文化交流及海外學習活動。往年，同學參加了由浸大舉辦的交流項目，包括大學交流團、環球工作體驗計劃、大都會體驗計劃以及由學院舉辦的海外文化交流活動等。

縱然近年疫情令實體國際交流變得困難，學院視危機為轉機，將文化欣賞及尊重滲透於課程內容和全方位學習體驗活動。我們邀請海外夥伴大學的學生、來自不同國家的學者、作者、商界領袖及業界專家參與網上講座及研討會，培養同學多元文化敏感度，以提升競爭力和擴闊國際視野。

「虛擬交流中心」自成立起一直致力加強與海外教育機構的聯繫，為本地及海外的同學提供豐富的交流機會，提升跨文化交流能力。過去兩年，我們舉辦多元化的課外活動、聯課活動以及全港第一個虛擬交流國際學術會議 (Global Virtual Exchange Summit 2024)。會議吸引了來自25個國家的83位講者以及來自48個國家合共682位與會者參與。

CIE is offering various types of scholarships and financial assistance to encourage students to excel in their studies and develop their talents. In 2023/24, around 500 AD, HD and UG students were awarded scholarships with a total of over HK\$5.5 million.

國際學院設有多項獎助學金，以鼓勵同學爭取更佳成績，發展才能。於2023/24學年，近500名副學士、高級文憑和自資學士同學獲頒逾港幣550萬元的獎學金。
